QIG6C

GATE 2016 Scorecard
Graduate Aptitude Test in Engineering

Name: **ANURAAG TUMMANAPALLY**

Registration Number: **EC16S42084107**

Examination Paper: **Electronics and Communication Engineering (EC)**

(Candidate's Signature)

GATE Score **749**

Mark out of 100* **56.15**

Qualifying Marks** **25.0** **22.5** **16.6**

General OBC (NCL) SC/ST/PwD

Valid from March 23, 2016 to March 22, 2019

All India Rank in this paper **473**

Number of Candidates Appeared in this paper **152318**

* Normalized marks for multisession papers

** A candidate is considered qualified if the marks secured are greater than or equal to the qualifying marks mentioned in the relevant category for which a valid category certificate, if applicable, must be produced along with this scorecard.

Digital Fingerprint : 51db92a66eb8bb0f558be4d6fba623

T. Bhattacharyya
Prof. Tirthankar Bhattacharyya
Organizing Chairperson GATE2016 on behalf of NCB-GATE, for MHRD

The GATE 2016 score is calculated using the formula

$$\text{GATE Score} = S_q + (S_t - S_q) \frac{(M - M_q)}{(\bar{M}_t - M_q)}$$

where,

M is the marks obtained by the candidate in the paper, mentioned on this scorecard in GATE 2016

M_q is the qualifying marks for general category candidate in the paper

\bar{M}_t is the mean of marks of top 0.1% or top 10 (whichever is larger) of the candidates who appeared in the paper (in case of multi-session papers including all sessions)

$S_q = 350$, is the score assigned to M_q

$S_t = 900$, is the score assigned to \bar{M}_t

In the GATE 2016 score formula, M_q is 25 marks (out of 100) or $\mu + \sigma$, whichever is greater. Here μ is the mean and σ is the standard deviation of marks of all the candidates who appeared in the paper.

Qualifying in GATE 2016 does not guarantee either an admission to a post-graduate program or a scholarship/assistantship. Admitting institutes may conduct further tests and interviews for final selection.

Dear Hozefa,

Please verify the following points, about my work at Nykaa

- **Role:** Software Developer
- **Duration:** June'16 - July'17
- **Roles and Responsibilities:**
 - Involved in development of Product listing, Search, and Checkout domains of the website.
 - Closely worked with Marketing team to strategically place tracking tags at numerous locations within the company website.
- **Softwares used:** Magento framework, PHP, Javascript, jQuery, HTML

Dear Sir,
Please verify my RESUME points.

1. M.Tech Project: OpenFlow Router with eBPF Forwarding Engine (Duration: May'19 - Present)

Objective: Create a fast data plane forwarding device for small to medium networks.
Completed work: Put together the functional requirements of controller and switch.
Ongoing & future work:

- Using POX controller to communicate with OpenVSwitch via OpenFlow protocol.
- Using eBPF in kernel space as backend for fast packet forwarding, and less number of packet copies.
- Implementing a level-compressed TRIE for fast lookup.
- Porting the entire system to a SPARC processor on FPGA, as a prototype for IoT deployment
- Benchmark testing of the system

2. Seminar: Open Source Router (Duration: Jul'18 - Dec'18)

- Studied Click Modular Router, Extended Berkely Packet Filter, Network Processor Architecture and Software Defined Networking (SDN)
- Implemented a basic version of Click modular router, to work as an Ethernet switch.

3. Teaching Assistant: Communication Networks (IIT Bombay, IIT Dharwad) (Duration: Jan'19 - Apr'19)

- Created and evaluated 7 lab experiments, based on socket programming.
- Work also involved traveling, setting up lab experiments and evaluations at IIT Dharwad.
